What to Expect During Your Emergency Department Visit

During the COVID-19 era, health care will be delivered in new and innovative ways to ensure the health and safety of our patients, family members and staff. Newton-Wellesley Hospital’s clinical leaders and infection control experts have analyzed every aspect of our operations and changed the process by which we deliver care to keep everyone safe. As a result, your experience will feel different in some ways – but it will still be the exceptional experience our hospital is known for.

Here’s what you can expect when you visit us in the future.

BEFORE YOUR VISIT

- **Visitor Policy:** Parents can accompany their children, spouses can accompany pregnant women, and family members can accompany patients with life-threatening conditions. No other visitors are permitted at this time. Please note: Newborns may not accompany their mothers into the Emergency Department because of the risk COVID-19 poses to infants.

- **Mask Policy:** All patients and providers are required to wear a mask at all times.

DURING YOUR VISIT

- **Checking In:** A nurse will greet you at the Emergency Department entrance and bring you to an open room as soon as one becomes available. We have implemented new protocols and procedures to reduce time spent in our waiting area.

- **Symptom Screening:** Upon arrival, you will be asked several questions about any COVID-19 symptoms you may be experiencing.

- **Waiting Room:** Waiting areas have been rearranged to ensure proper social distancing.

- **Staff Interaction:** Doctors and staff will wear appropriate PPE – including masks, gloves, and goggles – throughout the entirety of your visit.

- **Communication:** We encourage patients to communicate with family members and friends virtually, and we have technology available for use.

AFTER YOUR VISIT

- **Checking Out:** The check-out process will be completed in your room whenever possible.

- **Follow-Ups:** Any follow-ups will be conducted by phone or via virtual visit.

OTHER IMPORTANT INFORMATION

- It is vitally important to seek urgent and emergency medical care when necessary. Delaying essential care can have dangerous, unintended consequences.

Please know that you can feel confident that your care will be of the same high quality and safety you’ve come to know and expect from Newton-Wellesley Hospital. For more information on the steps we are taking across our organization, please see our Safe Care Commitment.

Thank you for your patience and understanding. As always, it is a pleasure and a privilege to care for you.
