

Congratulations on your pregnancy!

As you may know, Massachusetts requires that Newton-Wellesley Hospital collect certain information about you, your partner and your baby. This information is confidential. During your hospital stay a Birth Registry staff member will visit you and collect the required information.

To reduce the amount of time the Birth Registry staff member will spend with you, we have included a worksheet for you to complete prior to your hospital stay. Once you have completed the worksheet please use the pre-addressed envelope to mail it back to Newton-Wellesley Hospital.

If you have questions about the information that is collected or problems obtaining a copy of the birth certificate from Newton City Hall, please contact the Massachusetts Registry of Vital Records and Statistics (RVRS) at 617-740-2623.

Thank you for your cooperation!
