Forgot Username

Note: You have the ability to select ‘forgot your user name?’ on the login screen. Please follow the instructions and provide the necessary information. Your user name will then be displayed on the page.

(1) Click, ‘Forgot your user name?’

(2) Enter your Email Address

Forgotten User Name

Please enter your email address below. If you have never provided your email address, leave the field empty and click "Validate".
(3) The following screen will appear – you will need to provide additional information to validate.

Welcome. You are not signed in.
Job Search

The action cannot be completed.
The system cannot find a unique match. Please provide more information and Validate again or call our customer support hotline at careers@partners.org.

Forgotten User Name
For the system to identify your unique candidate record and retrieve your user name, you must provide some personal information. Fill in the fields below, then click "Validate" to verify if the information matches a unique candidate record. Note that email addresses usually produce the best results.

First Name
Last Name
Middle Name
Street Address
Email Address
Phone Number

Validate Cancel

(4) Your user name will now display

Welcome. You are not signed in.
Job Search

Username Retrieval Confirmation
You can go back to the login screen to access the application or use the forgot password feature if you don't remember your password.

User Name

Back to login page Forget your password?
Forgot Password

Note: You have the ability to select ‘forgot your password?’ on the login screen. Please follow the instructions and provide the necessary information. You will then receive an email with how to reset your password.

(1) Click, ‘Forgot your password?’

(2) Enter your User Name and Email Address. Select ‘OK’
(3) This message will be displayed on the screen

Welcome. You are not signed in.

Change Password
This page allows you to change your password.

Mandatory fields are marked with an asterisk.

User Name
koopithorne

» Access Code

» New Password

» Confirm New Password

OK | Sign Out

(7) You will now be logged into your account.
General Profile Creation

Note: You may search for jobs without registering or creating a login account. However, a registration and a login account are required before you can apply to a job or create an applicant profile.

Why create a profile?

- Profile data is used as default information when you apply to a job—thereby reducing the amount of information you need to enter.
- Profile data can be used to search more efficiently for jobs.
- Recruiters may use profile data to search for candidates who match certain criteria for positions.

(1) Before you can create a general profile, a login must be created, and a new account set up. To do so, you should click ‘New User’ on the Sign In page. Once the necessary steps to create an account have been completed, you will be able to access your account and set up your profile.
(2) You will be required to indicate agreement with the **Privacy Agreement**, presented prior to proceeding. Click, ‘**I Accept**’.

(3) To access the **Applicant Profile** page, select the dropdown link next to your user name, located towards the top of the page and click ‘**Profile**’.
Note: A flow chart is displayed at the top of each screen which indicates your progress. At any time during the Profile data entry, you may ‘Save as Draft’.

(4) Resume Upload- Add a resume using the following three options:

   I. Upload a resume from LinkedIn  
   II. Upload a resume from a file  
   III. Complete the resume data using manual entry

Note: Any resume uploaded will be used to pre-populate information into the remaining fields of the profile where applicable.
(5) Personal Information- Complete the remaining mandatory fields within the Personal Information page. Mandatory fields will be marked with a red asterisk.

You will also be asked to indicate how you heard about the job opportunities available within our organization.

(6) Preferences- The Preferences page allows you to identify your personal preferences in three categories including:

I. Job Field
II. Location
III. Organization
Note: Preferences are used by Taleo to automatically identify jobs that are of interest to you, and notifications can be turned on so you receive a communication when a posting meets your preferences. Preferences are constantly updating based on the criteria of the jobs you apply to – be sure to periodically check preferences to be sure you are receiving emails based on your current interests.

I. To set a **Job Field** preference, click the ‘**Job Family**’ drop-down list, select a value, and click ‘**Add to List**’. Once all preferences have been added click ‘**Save and Continue**’.

II. To set a **Location** preference, select a value for all three drop-down lists, including:

   a) **State/Providence**
   b) **City**
   c) **Work Location**

As a selection is made another drop down will appear to drill down to the work location. Once all location preferences have been added, click ‘**Save and Continue**’.
III. To set an Organization preference, click the ‘Organization’ drop-down list, select a value and click ‘Add to List’. Once all organization references have been added, click ‘Save and Continue’.

(7) Basic Profile Information- On the Basic Profile Information page, fill out the additional preferences and attributes about desired jobs.

Job Posting Notifications may be enabled if desired. To enable notifications, select the ‘Please select if...’ checkbox. These notifications are emailed to you notifying you of a position that matches information in your profile.

*Note: Salary and Advance Notice fields do not factor into the auto matching of jobs and sending of email notifications.*
File Attachment- On the File Attachment page, you can attach documents to your profile. Files could include Cover Letters, Certifications, and References. To add a file, click the ‘Browse’ button to search for files and then click ‘Attach’. Once finished, click ‘Save and Continue’.

Note: If a resume was attached in Step 1, it will appear in the search box automatically.

Review and Submit – On the Summary page, review each section of the profile to ensure the information is accurate. If any section requires updating, click the ‘Edit’ link in the associated section header. Once all entries have been reviewed, click ‘Submit’, to complete your Applicant Profile creation process.

The information entered into the Applicant Profile will pre-populate each time you apply for a position, streamlining your application process and taking less time to apply. However, the information populated can be edited on each specific job submission.

Note: You will not be given the option to upload or attach a new resume after the first time you apply to a position. If you need to update information you will need to do so manually and under the attachments section you may upload your most current resume.
Job Specific Application

Note: You may search for jobs without registering or creating a login account. However, a registration and a login account are required before you can apply to a job or create an applicant profile.

Before you can apply for a position, a login must be created, and a new account set up. It is also recommended that you set up a General Profile as well.

(1) From the external career site click ‘Sign In’.

(2) Either enter your login information and select ‘Login’ or select ‘New User’ to create an account.

Once you have logged in you are able to apply to positions.
(3) To apply for a desired job, click the ‘Apply’ button located to the next of the listing on the Job Search page.

Note: The application process contains a series of steps. For each posting, there will be a flowchart displayed at the top of the screen indicating the steps. You may click ‘Save as Draft’ to save your application at any point prior to submitting.

(4) On the Personal Information page, fill in any necessary information based on the required fields (marked with a red asterisk). Once all information has been reviewed, click ‘Save and Continue’.

This page includes the Source Tracking, where you must select from the Source Type drop down and then select how you specifically heard about the job.

Note: If a General Profile exists, then Taleo will default any available data contained in the profile. This information can always be updated as needed.
(5) On the **General Questions** page, please answer the questions asked of all individuals who apply for positions. Once all questions have been answered, click ‘**Save and Continue**’.

(6) If any **Job Specific Questions** are required, those questions will be presented next. Once all questions have been answered, click ‘**Save and Continue**’.
On the Education and Employment History page, fill in any relevant information regarding previous educational and employment experience. Required fields are marked with a red asterisk. Once all education and employment entries have been entered, click ‘Save and Continue’.

Note: If you uploaded your resume, or loaded your resume from LinkedIn, the parsing function should populate the Education and Employment History data. Please review the information that was parsed and make any necessary corrections.

Note: Most fields including Institution, Program, Employer, and Job function have search lists. However free-form text entries are also accepted. You are also able to add additional entries.
(8) On the Profession Credentials page, add any current licenses, certificates or registrations that may be applicable to the role. Once all credentials have been added, click ‘Save and Continue’.

Note: If a credential is not included in the selection list, it can be entered as free text.

(9) On the File Attachment page, add any additional files such as Cover Letter or references. To add a file, click ‘Browse’ to search for a file and then select a file. Once a file has been selected click ‘Attach’. When finished, click ‘Save and Continue’ to proceed.

Note: Files may be removed from the application by checking the ‘Relevant Files’ box, then ‘Delete’.
(10) You will be presented with self identification questions. You may select the option of not wishing to disclose if you do not want to provide this information.

(11) On the eSignature page, acknowledge the information within the statement and sign the application by entering your full name. When finished, click ‘Save and Continue’.

(12) On the Review and Submit page, review all of the information provided on the application. If updates are necessary, click the ‘Edit’ link within the associated section header. Once the application is ready for submission, click ‘Submit’.

When an application is submitted, a confirmation message will be displayed, signifying the completion of the application process.
To return to the homepage, click the ‘Job Search’ link.

Note: You can only apply to each job once. However, you are able to update your application after you have applied. To make updates please do so by editing the submission.

You will no longer be able to access or edit a submission when the position closes.

(13) To view submitted job applications click My Jobpage>My Submissions>View/Edit Submissions or simply click the ‘View/Edit Submission’ from the Job Search Page.

My Submissions (3 job submissions found)

View/Edit Submission Withdraw
Note: You can only apply to one job at a time, but are able to add multiple jobs to your cart to come back and apply to.
FAQ #1 – How to find the Job ID# for a Position

1. Log into your Taleo Account

2. Select the ‘My Jobpage’ tab. It will default to the ‘My Submissions’ tab.

3. Find the position you are inquiring about, the ‘Job Number’ will be listed.
FAQ #2 – How to View or Edit a Profile or Job Submission

Once you have applied for a position, you do not need to re-apply to make changes. If you need to update personal information or preferences you may do so in your profile. If you need to edit information specific to a job submission you may do so as well.

To Edit or View a Profile:

1. Log into your Taleo Account
2. In the top right hand corner, select the pull down arrow next to your name. (If you do not see your name, you are not logged in)
3. Select ‘Profile’.
4. If you have completed the profile, you will be brought to the summary page. You have the option to ‘Edit’ each sub section, the ‘Edit’ option is located next to the following sub sections:
   a. Personal Information
   b. Preferences
   c. Basic Profile
   d. File Attachments
To Edit or View a Job Submission:

1. Log into your Taleo Account

2. Select the ‘My Jobpage’ tab. It will default to the ‘My Submissions’ tab.

3. Select ‘View/Edit Submission’. (If you do not have this option, that means the position is no longer accepting applications for the job – you will only have the ability to view what you previously submitted)
4. You will be brought to the summary page. You have the option to ‘Edit’ each sub section, the ‘Edit’ option is located next to the following sub sections:

   a. Personal Information
   b. General Questions
   c. Job Specific Questions
   d. Education/Employment History
   e. Professional Credentials
   f. File Attachments
   g. Diversity Survey (You may not see this sub section depending on the job you applied for)
   h. Diversity

5. You also have the option to ‘Withdraw’ from your position. You should only withdraw your submission if you no longer want to be considered for that specific job, otherwise Edit the information you would like to change/update.
FAQ #3 – How to access your internal Taleo Profile to search/apply for positions as an External applicant upon leaving employment

Once you terminate employment, you will no longer be able to apply as an internal candidate. To ensure that you have access to your application history and are able to use the same account you used (or could have used) as an internal candidate, please update your email address in your internal candidate account prior to your termination. You can do this by logging into PeopleSoft, clicking on the Taleo link and then the Employee Job Search link. Once in Taleo please update your email address with your personal email. After you terminate employment, you can visit the career site and log in using your former employee ID as your logon. You can then request a new password using the ‘Forgot Password’ functionality and follow the instruction in the email that will be sent to you. If you have any issues, you can email careers@partners.org.

Steps you will need to complete to search and apply for jobs:

  - From here you are able to access your ‘My Account’ options to update personal information such as password and email address. You will not be able to edit your username.
  - From here you are also able to search and apply to all open positions across all Partners HealthCare Affiliates.
FAQ #4 – How to filter by Organization, Location, Job Field, Job Schedule, Job Shift, or Employee Status

1. On the Career Site you are able to filter jobs by the criteria along the left hand side of the page.
2. Select the check box next to the criteria to narrow down the list of available jobs. The criteria selected will populate above the list of jobs.

3. You are able to remove the criteria selected by un-checking the check box, or by clicking the ‘x’ next to the criteria populated above the list of jobs. The full list of available jobs will then be available.

4. If the criteria you are looking for is unavailable, select the ‘Show more...’ or ‘See all’ links.
See All:
